ROSEMONT GARDENS FLORISTS

W. B. PATERSON, Proprietor

SUNBURST

CATALOGUE FOR SPRING 1914

116 Dexter Avenue

MONTGOMERY, ALA.

IMPORTANT INFORMATION FOR OUR CUSTOMERS

This list cancels all previous offers and our prices will be found as reasonable as is consistent for well grown, true-to-name stock.

Remittances should be made by postoffice money order, drafts on Montgomery banks or express money orders. We disclaim all responsibility when remittances are not made as above directed. Where it is not possible to obtain them, letters should be registered. If check is sent, add ten cents for exchange.

Cash with order.—Please send money with the order, sufficient to cover the whole bill. Orders from unknown parties will not be sent C. O. D. unless remittance is made on account to guarantee acceptance.

Errors.—We exercise the utmost care in filling orders, yet, in the press of business, errors sometimes occur, in which event we wish to be promptly notified of the fact and will make such correction as will be satisfactory. Please keep copies of your orders for comparison.

Shipments will be made, in all cases, unless otherwise ordered, by express, as we have found it safer to send that way than by any other; but if wanted by mail, one-fifth additional must be added to cover postage and balance, if any, will be refunded. Plants, bulbs, etc., shipped by freight are entirely at purchaser's risk.

Non-Warranty.—As most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, owing to weather and soil conditions, improper planting, careless attention, etc., renders it impossible for us to guarantee success. We take all possible care to supply only such stock as will produce satisfactory results, and therefore will give no warranty as to description, quality or productiveness of any of the seeds, plants or bulbs we send out, and will not be responsible for the crop, and every order for articles named in this catalogue will be executed on these conditions only.

Name and address—Please remember to write your name, postoffice, county and state, also give the number of street, or P. O. box as distinctly as possible on each order, also nearest express office.

ALABAMA STATE BOARD OF HORTICULTURE
OFFICIAL CERTIFICATE NO. 46

To Whom It May Concern:

This is to certify, That in accordance with an Act of the Legislature approved March 5, 1903, the Nursery of **Rosemont Gardens**, at Montgomery, was examined August 8th, 1913, and that the stock in said Nursery was found apparently free from the San Jose scale and all other insects and diseases of a seriously injurious nature.

This Nursery is not properly equipped for fumigation.

This certificate is to cover only stock grown in the above named Nursery and becomes invalid after July 15, 1914.

Auburn, Ala., January 17th, 1914.

J. C. C. PRICE,
Acting State Horticulturist.

ROSES IN THE SOUTH

With our mild climate and long growing season, there is no excuse for a scarcity of roses in our Southern gardens. Little or no protection is needed in winter, and for the small amount of labor necessary to prune and care for them, no flower will yield a larger dividend in pleasure. The South should be the land of roses, and it is our desire to make Montgomery headquarters for the distribution of the best varieties in the country.

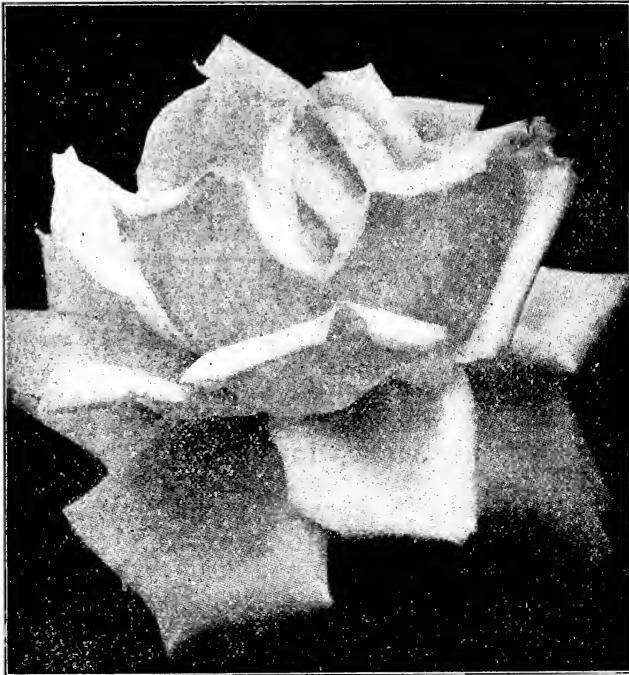

HOW TO GROW ROSES IN THE GARDEN

Preparation of the Ground.—Roses will grow in any fertile well-drained ground, but they respond quickly to liberal cultivation, producing a more vigorous growth, more flowers and a better quality when so treated. The ground should be dug to a depth of 18 inches, incorporating with the soil a liberal amount of well decayed manure, preferably cow manure, but if this is not readily procurable, our Pure Ground Bone applied at the rate of five pounds to the square yard makes a good substitute.

When, Where and How to Plant.—The best time to plant pot grown roses is from March 1st to June 1st, or that is after there is any chance of a freeze and before the hot weather begins. Always select an open, sunny position. Roses will not do as well in the shade. In planting, set the plants just a little deeper than they were before being taken up. Firm the soil well around the plants.

VERBENAS

Price 5 Cents Each; 50 Cents Per Doz.

Grand ledding plants, that withstand our winters in this section and which are a mass of bloom from early spring until winter. To secure best results the old blossoms should be picked off and not allowed to go to seed. Our collection embraces fourteen of the finest varieties grown. Colors: White, pink, scarlet, crimson, magenta purple, blue and variegated.

HARDY HERBACEOUS PLANTS

PRICE 15 CENTS EACH; \$1.50 PER DOZEN, EXCEPT WHERE NOTED.

These Old Fashioned Hardy Garden Flowers are growing in favor every day. Their popularity is not at all surprising when we consider the results obtained with so little care, and at hardly any expense, after once planting. The early flowering varieties begin in March and are followed by the summer and fall blooming varieties until frost. Many bloom the entire season. During the hot season or when it is not convenient to water them, the ground should be covered with any light loose material such as the rakings from the lawn pine needle straw, or well decomposed stable manure, and frequent stirring up around the plants during the growing season. The tall growing varieties should be staked up early in the season to keep the flowers from being ruined. Do not allow old flowers to remain on the plants, as it retards their blooming.

Aquilegia — (Columbines) —
Chrysantha — Bright yellow
flowers; long spurs.

Aquilegia Coerulea—Bright blue
and white, long spurred flow-
ers.

Boltonia (False Chamomile)—
Summer and fall bloomers.

Asteroides—Pure white, very ef-
fective, 4 to 6 feet.

Latisquama—Pink tinged laven-
der, 4 to 6 feet.

Bocconia Cordata (Plume Pop-
py)—A noble hardy perennial
growing from 6 to 8 feet; fine
for single specimens, foliage
downy green; flowers creamy
white, borne in panicles.

Campanula (Canterbury Bells)
—One of the most satisfactory
species in this class. If the
flowers are cut just when they
begin to fade, the blooming
period can be prolonged to
about six weeks.

Campanula Persicifolia (Peach
Bells)—Blue salver shaped
flowers during June and July;
2 feet.

Campanula Persicifolia Alba—A
pure white form of the above.

Campanula Pyramidalis (Chim-
ney Bell Flower)—The most
conspicuous of all, forming a
pyramid 4 to 6 feet high, with
large salver like blue flowers;
25 cents each; \$2.50 per dozen.

Caryopteris Mastacanthus—Blue
Spirea, sometimes called Tree
Verbena, blooming from Au-
gust until frost, with rich lavender blue flowers in great
profusion the entire length of
its branches. Price 25 cents
each, \$2.50 per dozen.

Daisies Shasta—A grand hardy
plant, producing large glisten-
ing white flowers, used largely
for cut flowering purposes;
our strain is certainly the finest
ever offered.

Coreopsis Lanceolata Grandiflora
(Golden Daisy)—A favorite
everywhere; blooms all sum-
mer if not allowed to go to
seed; succeeds everywhere.

Dianthus arbatus (Sweet Wil-
liam)—Old favorites; we offer
mixed varieties only

Digitalis (Fox Glove)—Grand old favorites, growing from 4 to 6 feet high, with gloxinia like flowers up the entire stem; we offer them in white, purple, lilac and rose.

Gaillardia Grandiflora (Blanket Flower)—One of the showiest hardy plants growing about 2 feet high and blooming the entire summer. The flowers are all gorgeous, the center is a dark red brown, while the petals are marked with rings of brilliant crimson orange and vermillion; excellent for cutting.

Helianthus (Hardy Sunflower)—Very effective for large borders.

Multiflorus Fl. Pl.—Double golden yellow, like a Dahlia blooms all summer.

Maximilliana—The latest of all, perfecting its fine golden flowers in long graceful sprays, when all others are finished.

Hibiscus (Mallow)—Very showy border plants succeeding best in a sunny position, producing very large flowers during the entire season.

Moscheutos—Light rosy red with dark eye.

Crimson Eye—Pure white, with deep crimson eye.

Hollyhocks—Old favorites, require deeply dug, well drained, soil, enriched with thoroughly decayed manure, and should be well watered during the dry season. We offer the best of the double flowering varieties in white, rose, yellow, red, and maroon. Price: 25 cents each; \$2.50 per dozen.

Heliopsis Pitcherianus (Orange Sunflower)—Similar in habit to the Helianthus—very free

flowering and succeed in any soil. Fine for cutting.

Hypericum Mosserianum (St. Johns Wort)—A very desirable border plant producing long slender much branched stems; free flowering with flowers of a deep gold color, 2 to 2½ inches diameter, with a multiplicity of yellow stamens and crimson anthers, sometimes called the Gold Flower. 25 cents each, \$2.50 per dozen.

Iris German—These are among the most desirable of our spring blooming plants; for best results, plant in a well drained sunny position, barely covering the roots. Avoid fresh manure in preparing the ground.

Edith—Plumbago blue and purple.

Florentine Alba—Pure white.

Blue Boy—Lavender blue.

Honorabilis—Yellow and mahogany.

Mad Chereau—White edged with blue.

Plicata—Bright violet purple.

Iris Japan—These do fairly well in the South, if planted in a good rich soil in a partially shaded situation and given plenty of water. They are grand flowers when one succeeds in the proper cultivation. We offer mixed sorts only.

Lilium—All herbaceous borders should have a few lilies scattered through them.

Auratum (Gold-banded Japan)—Ivory white, with crimson spots and a broad golden band through each petal.

Speciosum Album—Large white flowers with greenish band in center.

Speciosum Roseum—White heavily spotted with rosy crimson spots.

Speciosum Magnificum — Rich deep red.

Price: 25 cents; \$2.50 per dozen, for above.

Lobelia Cardinalis — (Cardinal Flower)—Rich silky cardinal flowers, borne in long spikes; must have plenty of water and shade.

Monarda Didyma (Oswego Tea) —Flowers bright scarlet.

Paeonias—The Queen of Spring Flowers, well adapted to our climate if given proper treatment. They require very rich soil, which must be well drained. Do not plant too deep, and during the hot season protect by mounding the earth up around the plants, and do not allow them to get dry any length of time.

Alba—White Rosea-pink, Rubra-brilliant, rich crimson.

Price: 35 cents each; \$3.50 per dozen.

PHLOX

Hardy Phlox—These popular favorites require very rich soil and partial shade. The soil should be spaded very deep, and the plants well mulched during summer and should not be mixed in with other plants. Should be kept well watered. If treated in this manner you should have a gorgeous display of bloom.

Beranger—White and pink with amaranth red eye.

Bridesmaid—White with crimson center.

Edmond Rostrand—Reddish violet with large white eye.

George A. Strohlein — Bright scarlet with crimson red eye.

Henry Murger—White with crimson carmine center.

Le Prophette—Bright violet rose, bright rosy eye.

M'me. Paul Dutrie—Delicate lilac rose, beautiful.

Obergartner Wittig—Bright magenta, crimson carmine eye.

Pantheon—Bright carmine rose.

R. P. Struthers—Rosy carmine with claret eye.

Selma—Pale rose mauve, claret red eye.

Siebold—Vermillion red and orange scarlet; crimson red eye.

Price: 25 cents each; \$2.50 per dozen.

Pentstemon (Beard Tongue)—Showy perennials, producing spikes of showy flowers in a variety of bright colors; same treatment as phloxes; we offer mixed sorts only.

Physostegia—Beautiful midsummer flowering perennials, bearing spikes of delicate tubular shaped flowers.

Virginica—Bright soft pink.

Alba—White.

Pyrethrum—Grand plants blooming in June in any garden soil; splendid for cutting; we offer mixed sorts only.

Pinks, Hardy Garden—Old favorites, with sweet clove scented flowers in the greatest profusion during May and June.

Elsie—Bright rose maroon center.

Her Majesty—Pure white.

Juliette—White laced crimson.

Excelsior—Light rosy pink.

Rudbeckia—Well known plants, blooming all summer with golden flowers resembling the *Chrysanthemum* in shape; very easy culture.

Golden Glow—Bright golden yellow, very double blooms all summer.

Purpurea (Giant Purple Corn Flower)—Flowers about 4 in. across, of a reddish purple color with a large cone-shaped brown center.

Rays of Gold—New; a perfect globe of golden petals; very attractive.

Sedum Spectabilis—A succulent plant with round glaucous foliage and bright pink flowers produced in large clusters; a fine plant for cemetery purposes, blooming in mid summer when flowers are scarce. Price: 15 cents each; \$1.50 per dozen.

Tritoma Pfitzerii (Ever-blooming Torch or Flame Flower)—In bloom from July to September with spikes from 3 to 4 feet high, of a rich orange scarlet color. 25 cents each; \$2.50 per dozen.

Valeriana Officinalis (Garden Heliotrope) — Produces heads of rose pink color with a decided heliotrope shade; a fine border plant of easy culture.

CLIMBING PLANTS

Antigonon Leptopus (Mexican Rose)—A beautiful climbing plant, with tuberous roots, blooming during late summer. Flowers produced in large racemes of a most beautiful pink color. Tops die down in winter. Price: 25 cents each; \$2.50 per dozen.

Ampelopsis Veitchii (Japan Ivy) —A deciduous climber of rapid growth, suitable for covering walls, stumps, etc. Strong field grown plants, 25 cents each; \$2.50 per dozen.

BRIDE'S SHOWER BOUQUET OF WHITE ROSES

THE accompanying illustration shows one of the most popular styles of Bouquets for a simple home or church wedding where an elaborate bouquet is not desired. This bouquet is nearly always carried by the bride, but where the bride carries an orchid bouquet, it is sometimes carried by the maid of honor. This style bouquet is beautiful for bridesmaids, the color of the roses varying; pink, yellow or red roses, but same is usually used without the shower.

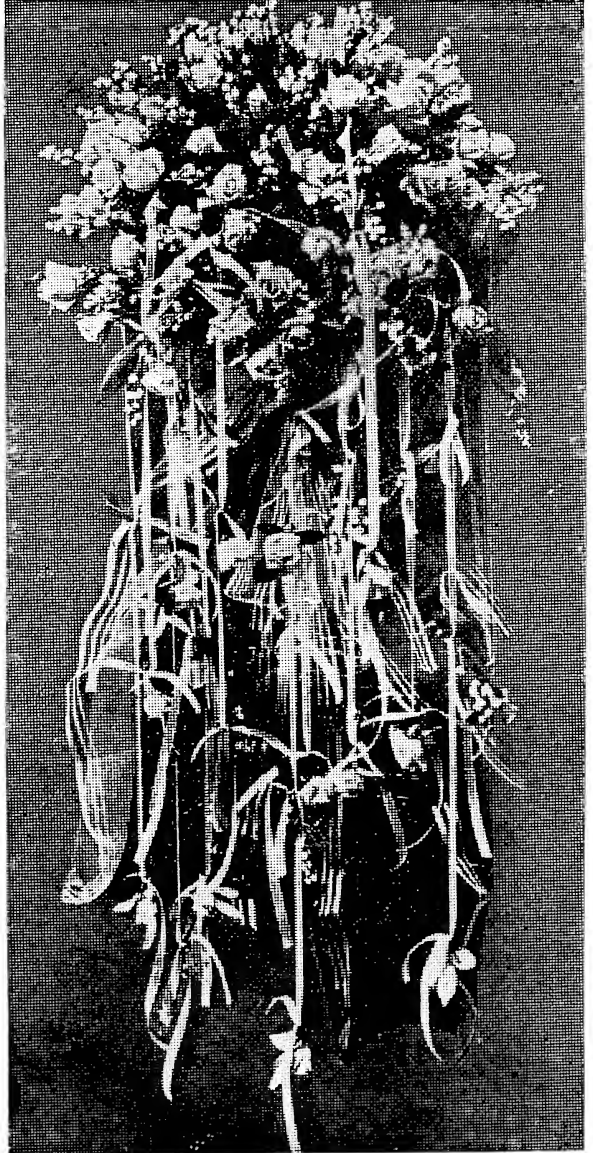

SUGGESTIONS FOR WEDDINGS CHEERFULLY FURNISHED AT ANY TIME.

**BRIDE'S SHOWER BOUQUET OF WHITE ROSES AND
LILY OF THE VALLEY**

THE accompanying illustration shows the Bride's Shower Bouquet of White Roses and Valley Lilies. This bouquet is handsomely tied with tulle, and is easily one of the most effective style of Bride's bouquets.

Appropriate for either church or home wedding, especially where the Bride wears a veil. The price depends upon the quantity of flowers used, the same quality being used in both large and small bouquets.

SUGGESTIONS WILL BE CHEERFULLY FURNISHED

CORSAGE—LILY OF THE VALLEY AND ROSES

THIS corsage is composed of Lily of the Valley and Roses. The corsage bouquet is often worn by the Mother of both Bride and Groom at the wedding ceremony and reception, and is sometimes used by the Bridesmaids at a morning wedding. This is a very popular corsage bouquet, being made of either pink, white, red or yellow roses, and is especially appropriate for the guests to wear at a wedding or reception.

This corsage bouquet has a corsage shield and is tied with the heavy cords and tasseled ribbons. The same color of shield and cords are used as are the roses.

The corsage bouquet is the most popular way in which ladies use flowers, and is worn at all social gather-

CUT FLOWER DEPARTMENT

WHILE our Plant Catalogue is extensive and will give some idea of the extent of our Green House Department, still it is very small in consideration to the space devoted to cut flowers.

We claim to have the largest area of glass in Alabama, embracing nearly 200,000 feet, the largest part of which is devoted entirely to cut flowers, embracing Roses, Carnations, Chrysanthemums, Sweet Peas, Lilies, Orchids, in fact everything used in this line.

We keep constantly in touch with the introducers of all new and meritorious novelties and so are **strictly up-to-date** in every branch, and can fill all orders intrusted to us with promptness and despatch, every day of the year.

Our facilities for filling orders for Cut Flower Work of all kinds are unsurpassed, whether for Weddings, Funerals, Parties, etc. Our artists are the first in the land, and for finish and originality cannot be excelled in this entire Southern country.

We would impress upon our customers the fact that the longer time that can be given us insures better workmanship than can be furnished on a rush notice, although the best quality of flowers will only be used at all times.

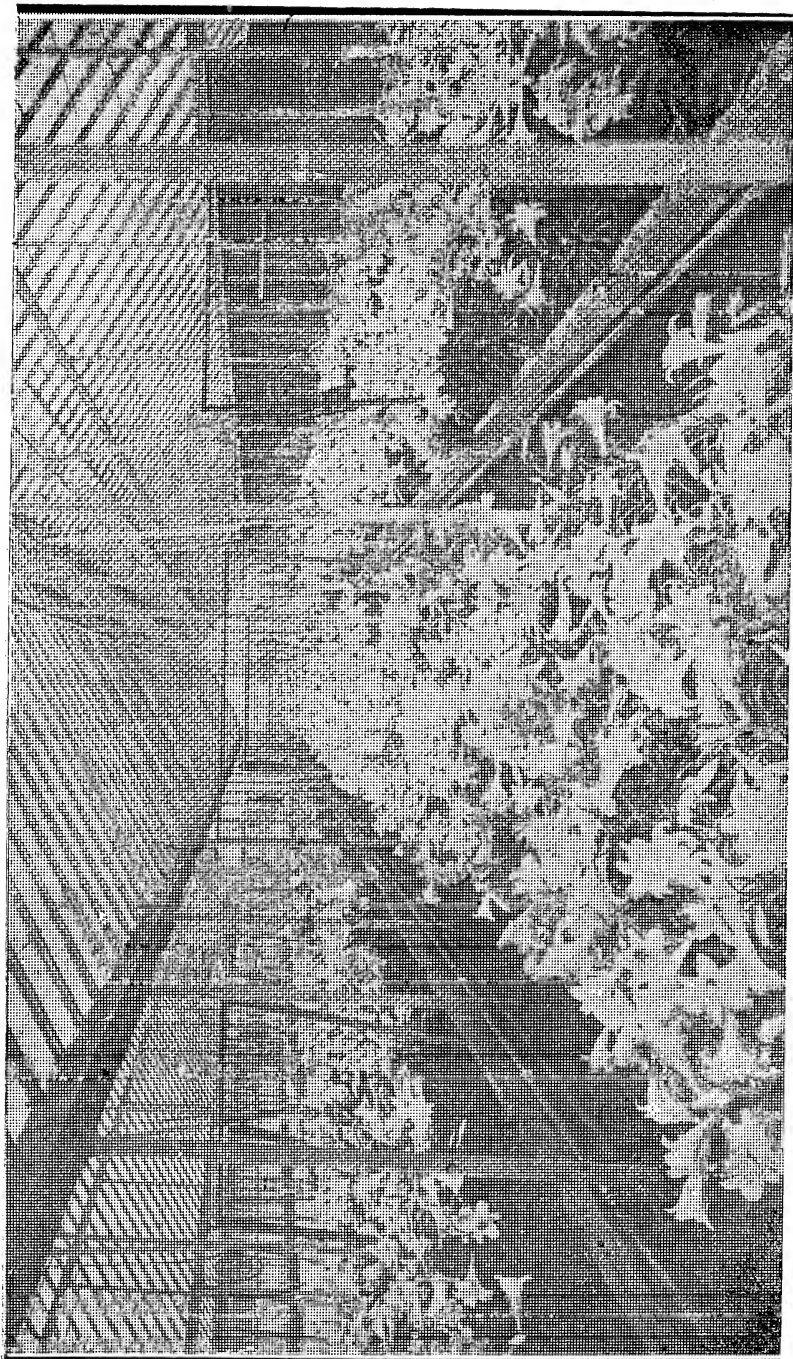

Loose cut flowers can be sent short distances only by Parcel Post, but prefer sending by Express, to insure safety and prompt delivery.

We thank our many friends and customers for past favors and can assure them that our best efforts will be exerted to fulfill every promise made.
